

UNCOMMONLY INSPIRING

MANNINGTON
COMMERCIAL.

LIGHT AND SHADOW

Connected through the Behance Network, Korean industrial design firm Ryan Harc brought a global perspective on trends and design concepts and worked with Mannington to translate their ideas into flooring. Equinox Collection offers visual fields of light & shadow rendered as pure texture with the sophisticated use of grids and gradients.

EQUINOX

THE BEHANCE COLLECTION

A creative collaboration with Korean industrial design firm Ryan Harc yielded QR, a collection of carpet with coordinating LVT that allows for revolutionary functionality on the floor. The QR code can be scanned with open source software on any smartphone, where it can deliver updatable wayfinding information, entertainment, education, and more.

HOK PRODUCT DESIGN, PALLAS TEXTILES, & MANNINGTON

Created by HOK Product Design especially for healthcare projects, Vivendi is a cross-platform family of products including flooring from Mannington and textiles from Pallas. This resilient sheet provides rich layering of patterns with design concepts of luxury, health, and calm, bringing interest to the floor while complementing other design elements. Performs with the low maintenance and high durability needed in heavy-traffic commercial healthcare environments.

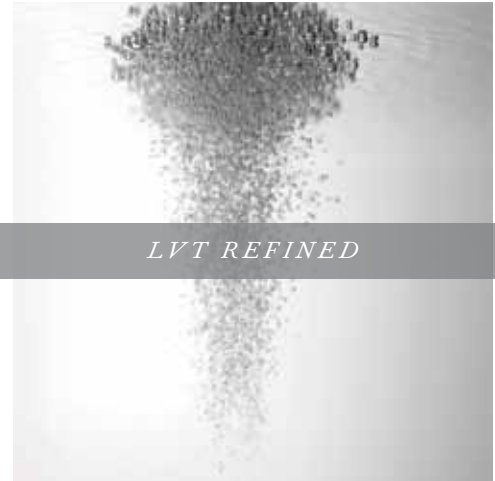

THE VIVENDI COLLECTION

DISSOLVE

LVT REFINED

Reminiscent of linen textiles, Dissolve is a unique LVT pattern that offers a clean, modern visual in 6 colorways. 18" squares and 18x36" rectangular tiles allow for endless design possibilities in a multitude of project applications.

MATRIX

TX:STYLE DESIGN CHALLENGE COLLECTION

Designed by Laurel Harrison, winner of Mannington's 2010 tx:style design challenge, Rainfall is inspired by the luminescence of rain on glass. This contemporary LVT is available in 18" squares and 18x36" rectangular tiles.

Designed by Athena Abrol, winner of the 2010 tx:style design challenge, Matrix utilizes gradations of color and texture along with random pops of color available through an innovation in variable space dye technology exclusive to Mannington.
